Subject: Mar 25: land use loading rates meeting

Importance: High

Hello everyone,

Thanks very much for your quick reply to the poll. Please save Wednesday, March 25th - 10:00AM-3:00PM for this meeting. The meeting will be held at the SERC campus in Edgewater, MD (exact meeting room location will be sent out soon). A conference line will be available for those of you unable to travel to the meeting.

Attached please find two pieces of background material: the TetraTech literature review, and a presentation that Olivia Devereux gave to the Agriculture Workgroup in February. Additional materials and a meeting agenda for the 25th will be shared with you very soon.

Please contact either Mark Dubin or myself if you have any questions.

All the best,

Emma
